

4/13/2011

Dear Jim,

I can't thank you enough for your Anti-bullying and Personal Power presentation you made our students. The feedback I am getting from teachers, students, parents and community members is fantastic. I further want to express my gratitude for coming back and presenting to my Parent/Community Forum as well.

Like so many schools we are committed to providing the best possible environment for our students and it is our belief that the only way to truly combat bullying is by creating a positive school climate that empowers students to advocate for themselves and promotes support from one another, your program does that and more.

Thanks for that you do and keep up the great work that you do for the students of Southwest Michigan.

Sincerely,

Jay P. Peterson
